Advance Generation .....	154
— Advance + ovens .....	158
— Advance ovens .....	160
— Concept ovens .....	162

All ovens requiring water must be connected to a treated water supply when the local water at any time is over 7 HF / 4.0 HD, or has a Cl concentration over 150 mg/litre, or a salt content in excess of 30 mg/litre.

Ovens boilers must be drained down at the end of each shift. Manufacturers warranty will be void if this is not complied with.

LPG: 37 g/cm<sup>3</sup>  
 Natural Gas: 20 g/cm<sup>3</sup>

Operating problems arising from faulty installation that does not meet these requirements will not be taken into account as a guarantee.

**Product flexibility  
for all types  
of needs and spaces.**

One must be prepared to offer each client a different response, to meet all needs. Fagor industrial is.

The ADVANCE generation has one of the largest ranges of ovens on the market with regard to sizes and performance. Simply choose the suitable model for each professional need among the 30 available. With options for gas or electric in all sizes and options.

They come in five different sizes for the three different levels of performance: ADVANCE PLUS, ADVANCE and CONCEPT.

## ADVANCE +

**One of the best ovens  
On the market**

ADVANCE PLUS ovens are made for professionals who do not want to give up any functionality. They have the highest performance of the market, achieving a perfect balance between cooking quality, simplicity, efficiency and safety.

## ADVANCE

**The best value for money in ovens  
with steam generators**

ADVANCE ovens are the ideal solution for those professionals who need an affordable oven, with advanced features, guaranteeing perfect cooking results, safety and efficiency.

## CONCEPT

**Simple, economical,  
Powerful and robust oven**

CONCEPT ovens are the basic answer for any professional who is looking for a simple, economical, powerful and robust oven.

# Advance + | Ovens

ADVANCE PLUS ovens are made for professionals who do not want to give up any functionality. They have the highest performance of the market, achieving a perfect balance between cooking quality, simplicity, efficiency and safety.

## General characteristics

- "Touch control" screen.
- 5 cooking modes: steam, adjustable steam (Humidity control during cooking), combi, regeneration and convection (up to 300 °C).
- Preheating option.
- Fagor Easy cooking mode.
- Fagor Cooking, range of cooking programmes.
- Fagor Multi-Tray System, control cooking by tray.
- Delayed programming for: Cooking / Low-temperature cooking / Washing.
- Memory function: records the different cooking modes used.
- 3 Speeds - 2 power ranges.
- Cool-down chamber cooling system.
- "Auto-reverse" system to reverse fan rotation.
- 5 wash programmes.
- Multisensor core temperature probe.
- Core probe positioning aid to facilitate the process of temperature measurement in soft-consistency foods, avoiding it to fall out.
- PC management software: History, recipes, HACCP, manuals...
- HACCP cooking data recording system.
- Steam generator equipped with limescale detector.
- Steam generator automatically empties every 24 hours of cooking.
- Semi-automatic limescale removal system.
- Quick door-closing system (061, 101 and 102 models).
- Integrated trolley (201 and 202 models).
- Error detection system.
- Repair service mode system.
- IPX-5 protection.
- Retractable shower.
- Voltage - Electric models: 400 V - 3+N -230V 3 - 50/60 Hz.
- Voltage - Gas models: 230V 1+N - 50 Hz or 60 Hz.

Note: All ovens need neutral wire (N).  
 If no neutral wire in the electrical installation, you must order the accessory "Kit Neutral" with code 19013247 (see the chapter "Accessories").  
 Includes:  
 - 2 kg Drum of detergent (AB BOOST), tu use with the self-cleaning program.  
 Options:  
 - Left opening in models 061 and 101, electric.

## Functional

Door opening, unit height, and every single detail has been designed to make your kitchen a safe and easy place to move around.

## Complete range

As a complement to our Cook & Chill units we provide a complete range of accessories perfectly adapted to both lines.

## Easy to handle

The control panel has been designed for a friendly use of Cook & Chill processes.

## Design

Polished lines to create an integrated system in the kitchen.

## Ata series

ATA-061      ATA-101      ATA-102

## Stacking 6gn 1/1

Stacking solution 6G-GN1/1 for reduced spaces.

## Online solution

ATA 102 BLAST CHILLER + OVEN

Online solution for oven units + blast chiller sizes 101 and 102.

## General characteristics

- Mixed models, for chiller blasting (+3 °C) or freezing cycles (-18 °C).
- There two working options both for chiller blasting and freezing:
- Power cycle: for over 2 cm thick compact products.
- Soft cycle: for less than 2 cm thick or low density products. The cycle is run in two programmed stages. The soft cycle prevents frost on the product.
- Cycle duration:
  - Refrigerating cycle: 90 minutes.
  - Freezing cycle: 240 minutes.
- Electronic timer and temperature sensor.
- The cycles can be controlled by time or by temperature according to the reading of the temperature sensor inside the product (time control is automatically applied when no probe is used).
- When the refrigerating cycle is over, the equipment works as a refrigerated cabinet, and the temperature remains between +2 and +4 °C, or as a freezer, with temperatures under -18 °C.
- Hermetically sealed compressor with ventilated condenser.
- R-452A ecological cooling (CFC free).
- 60 mm thick injected polyurethane insulation.
- 40 kg density. CFC free.
- Copper piping and aluminium flaps evaporator.
- Forced draught cooling system.
- Automatic defrosting device activated by the user, and water evaporation device without power consumption (all models except for ATA-102).
- Inner tray slides included.

### Ordering options:

- Heated probe.
- USB port.

# Vacuum packers

## Complete the process

"The constant evolution of culinary techniques requires reliable conservation and elaboration systems that use technological innovations. The new generation of industrial packaging machines is extremely precise thanks to the sensor control and Busch pumps, the undisputed leader of vacuum pumps, which are known for their reliability and quality.

The new professional vacuum packers by Fagor Industrial make it possible to increase the shelf life of foods, preserving their aroma and organoleptic qualities, as well as broadening cooking possibilities and optimising culinary processes."

01.

### High-precision digital control using sensor

High-precision microprocessor which controls the desired vacuum percentage of the chamber, therefore enabling precise and consistent results at all times, regardless of the type/quantity of the product to be packaged.

02.

### Cleaning

Their design and materials - stainless steel, no sharp corners, rounded edges and a cable-free sealing bar - enable quick and easy cleaning.

03.

### Maintenance

Easy maintenance thanks to the tilting opening system which enables easy and ergonomic access to all parts for maintenance, therefore reducing maintenance costs. Additionally, it has audio and visual alarms for oil change.

## General characteristics

- Vacuum packers with digital controls, controlled by sensor.
- Made of stainless steel, no sharp corners and rounded edges.
- 2 units of high-quality polycarbonate fill sheets.
- High-precision microprocessor which controls the vacuum percentage of the chamber, therefore enabling precise and consistent results at all times, regardless of the type/quantity of the product to be packaged.
- Digital control panel with display included.
- Easily programmable memory for 10 programmes.
- Possibility of performing additional 60" vacuum.
- Possibility of packaging liquids.
- H2Oout programme to dehumidify the pump.
- Programme for external packing both in

- bags and containers.
- All models include Busch pumps.
- Reed switch for automatic start the vacuum cycle once the lid is closed.
- Lid with gas shock absorbers for smooth opening.
- Piston with two positions: operation and standby. In standby position, the lid is not stressed by the piston, ensuring that it does not become deformed over time.
- Cable-free sealing bars with pneumatic pistons. Their shape ensures a hermetic seal even when using multiple packaging (2-3 bags).
- Protection against possible entry of water into the machine.
- Thanks to the injection of inert gas, the G models make it possible to package delicate or soft products.
- Oil level indicator.
- Audio and visual alarms: vacuum alarm

- (warning if the configured vacuum level is not reached) and oil change.
- Visualisation of the complete machine cycles.
- Tilting opening system which enable easy access to all parts for maintenance.
- Internal electronic cards, protected with hermetic casing (waterproof and flame-retardant).
- Easy to replace teflon of the sealing bar.\*

All ovens requiring water must be connected to a treated water supply when the local water at any time is over 7 HF / 4.0 HD, or has a Cl concentration over 150 mg/litre, or a salt content in excess of 30 mg/litre.

Ovens boilers must be drained down at the end of each shift. Manufacturers warranty will be void if this is not complied with.

LPG: 37 g/cm<sup>3</sup>  
Natural Gas: 20 g/cm<sup>3</sup>

Operating problems arising from faulty installation that does not meet these requirements will not be taken into account as a guarantee.

**One of the largest ranges on the market.**

The Advance generation ovens by Fagor Industrial are complemented by an extensive catalogue of receptacles and accessories to meet even the most demanding needs of professionals and enable them to get the best out of their ovens, improving ergonomics and flexibility in professional kitchen operations.

New

## Cooking accessories

### Smoker

Smoking is a method which has been used for centuries to preserve food for longer or to give it a different taste, especially for meats, fish and vegetables.

By using the "smoker" accessory presented by Fagor Industrial, the combination oven is optimised and transformed into a smoker, saving space and time.

The user can apply typical smoked tastes and aromas as they cook in the oven by using chips of different types of wood, suitable for each cooking.

Once the smoker has been inserted into the oven, the time and temperature can be adjusted to regulate the intensity of the smoke.

MODEL	CODE	POWER W	VOLTAGE	HZ	DIMENSIONS (mm)	€
SMOKER	19059112	250	230 V 1N	50 / 60	95 x 268 x 54	440,00

### Kit "sous vide" kit vacuum cooking

MODEL	CODE	DESCRIPTION	€
SOUS-AD	19032607	Special temperature control probe for vacuum cooking ("sous-vide"). The user chooses to connect to the control panel the probe with which they wish to work: that of the oven itself (multi-temperature) or the one for "sous-vide". Machines with a probe for vacuum cooking should be requested by indicating the following on the order: Machine code + SOUS-AD kit code. The oven will be dispatched from the factory ready prepared with the two probes and the connector on the control panel which allows one or the other to be connected depending on the type of cooking.	1.362,00

## Assembly for ovens in column

### General characteristics

- The kits for ovens in column are composed of a set of parts which allows the ovens to be positioned one above another.
- This type of assembly is carried out with 1/1 tray ovens, from any of the three electric ranges.
- The codes of the two ovens must be specified when placing the order, as well as the code of the kit of parts to carry out the assembly in column.
- Fagor Industrial supplies the column of ovens ready assembled and finished from the factory.
- Available only with electric models.
- Factory built-in only.

## Assembly for "Cook & chill" stacking

### General characteristics

- Kit of elements to make a stacking system "Cook & Chill" with an oven and a blast chiller or freezer.
- In the order you must indicate these data:
  - Code for the oven.
  - Code for the blast chiller.
  - Code for the assembly kit elements to carry out assembly in column.
- Fagor Industrial supplies the column of ovens ready assembled and finished from the factory.
- Factory built-in only.
